background.

Rico

JavaScript for Rich Internet Applications

Home Features Demos Documentation Downloads About

An open-source JavaScript library for creating rich internet applications. Rico provides full Ajax support, drag and drop management and a cinematic effects library.

BACKGROUND

Rico is a Spanish word meaning *rich*. The goal of Rico is to provide a rich experience for web sites using Ajax technology.

Rico is just one small part of a larger effort at Sabre Airline Solutions to create a suite of rich internet components, behaviors and effects for the web application space.

The library is a fully object-oriented JavaScript library. Recently we refactored the library to extend the excellent [prototype.js](#) effort from the Ruby on Rails folks.

OPEN SOURCE

Rico is provide free and open-source ([Apache 2.0 License](#)) for either your personal or commercial use. [Sabre Airline Solutions](#) retains the copyright on the Rico code produced at Sabre.

BROWSER SUPPORT

Rico has been tested on IE 5.5, IE 6, Firefox 1.0x/Win, Camino/Mac, Firefox 1.0x/Mac. Currently there is no Safari or Mac IE 5.2 support. Support will be provided in a near future release for Safari.

AJAX SUPPORT

Ajax is the term that describes a set of web development techniques for creating interactive web applications. One of the key ingredients is the JavaScript object XMLHttpRequest. Rico provides a very simple interface for registering Ajax request handlers as well as HTML elements or JavaScript objects as Ajax response objects. Multiple elements and/or objects may be updated as the result of one Ajax request.

Want to get started learning? Check out our [demos](#) and then read our two Ajax tutorials on the [Documentation page](#).

DRAW AND DROP

Desktop applications have long used drag and drop in their interfaces to simplify user interaction. Rico provides one of the simplest interfaces for enabling your web application to support drag and drop. Just register any HTML element or JavaScript object as a draggable and any other HTML element or JavaScript object as a drop zone and Rico handles the rest.

CINEMATIC EFFECTS

When actions are no longer occurring just at the page level but within the page itself, more clues are required to clue the user on what has transpired. Cinematic effects such as scaling and smooth sliding transitions can communicate change in richer ways than traditional web applications have explored before. Rico provides several cinematic effects as well as some simple visual style effects in a very simple interface.

BEHAVIORS

Take some raw HTML and sprinkle in some behaviors and what do you get? Well in Rico you can get an [accordion](#) component like those found in Macromedia Flex and Lasso. Just nest some DIVs and with one line of JavaScript turn your div panels into an accordion. And the latest behavior is the LiveGrid. LiveGrid allows you to connect an HTML table up to a stream of Ajax responses. Ajax requests are automatically called during table scrolling. The result is now HTML tables can hold an unlimited amount of data scrolled into view on the fly as needed! More behaviors are planned!

NEW! LiveGrid Behavior!

Check out the Alternative to Paging!

Welcome

Welcome to the Yahoo! Design Pattern Library. We are very happy to be sharing our library with the design and development community. This is our first drop of what we hope to be a monthly release cycle for the publication of patterns. In many cases we have bundled the patterns with pointers to related code from the [Yahoo! User Interface Code Library](#). We hope this is a useful resource and look forward to your [feedback](#).

What's a Pattern?

A pattern describes an optimal solution to a common problem within a specific context. [more...](#)

Recent Patterns

Auto-Complete

The user needs to enter an item into a text box which could be ambiguous or hard to remember and therefore has the potential to be mis-typed.

Breadcrumbs

User needs to navigate potentially large quantities of information efficiently, without becoming lost.

Drag and Drop Modules

The user needs to re-arrange the layout of modules on a web page directly with the mouse.

Object Pagination

The user needs to view data items from a potentially large set of sorted data that will not be easy to display within a single page.

Navigation Tabs

The user needs to navigate through a site to locate content and features and have clear indication of their current location in the site.

Results Page

The user needs to view a set of search results ranked by relevance that is too large to easily display within a single page.

Rating an Object

A user wants to quickly leave their opinion on an object, with minimal interruption to any other task flow they are involved in.

Writing a Review

User wants to share her opinion (with others about an object (place, person, thing)) in greater detail than a simple rating.

developer.yahoo.com/ypatterns

The image displays three overlapping screenshots of the Yahoo! Developer Network Design Pattern Library website. The top-left screenshot shows the 'Design Pattern Library' page, which includes a 'Welcome' message, a 'What's a Pattern?' section, and a 'Recent Patterns' list. The top-right screenshot shows the 'Ratings and Reviews' page, featuring a 'Problem Summary', 'Solution Patterns', and a 'Rating An Object' section. The bottom screenshot shows the 'Rating An Object' page, which includes a 'Problem Summary', 'Use When' section, and a 'Solution' section. The website has a yellow and white color scheme with a navigation sidebar on the left and a search bar at the top.

Design Pattern Library

Yahoo! Developer Network > Design Pattern Library > Ratings and Reviews > Rating An Object

Problem Summary

A user wants to quickly leave their opinion on an object, with minimal interruption to any other task flow they are involved in.

EXAMPLE:

Restaurant

Alma St
Menlo Park, CA 94025

Cross Street:
Between Alma Ln and Ravenswood Ave

Rate a restaurant on Yahoo! Local

Use When

- A user wants to leave an opinion quickly.
- Use in combination with reviews for richer experience.
- Use to quickly tap into the existing "community" of a product.
- Ratings are collected together to present an average rating of an object from the collective user set.

Solution

- Show clickable items (most often used are stars) that light up on rollover to infer clickability.

[Print](#) [E-mail](#) [Disable live quotes](#)
[RSS](#) [Digg It](#) [Del.icio.us](#)

NEW YORK (MarketWatch) -- U.S. stocks rose Wednesday, with all eyes on the Dow Jones Industrial Average, as gains for Intel Corp., McDonald's and others put the blue-chip index within striking distance of a new high.

The Dow industrials ([\\$INDU](#) : 11,709.25, +39.86, +0.3%) rose as much as 51 points to 11,720.77, just shy of its record high close of 11,722.98. It was last up 39 points at 11,708, with 18 of 30 components contributing to gains.

The Nasdaq Composite ([\\$COMPQ](#) : 2,267.12, +5.78, +0.3%) was up 7 points at 2,268 while the S&P 500 Index ([\\$SPX](#) : 1,338.76, +2.42, +0.2%) gained 2 points to 1,338.

"Why shouldn't the market be going up?" says Art Hogan, chief market strategist at Jefferies & Co. "You have lower energy prices and low interest rates. You have McDonald's raising its dividend and some good news for Intel. There's more good news than bad news out there."

Hogan said the market was shrugging off a weak durable goods report because it is backward looking and reflects a time when energy prices were much higher, crimping orders for big-ticket items.

On the broader market for equities, advancers outpaced decliners by 21 to 11 on the New York Stock Exchange, and by 17 to 11 on the Nasdaq.

By sector, semiconductors ([\\$SOX](#) : 461.30, +2.31, +0.5%), networkers ([\\$NWX](#) : 238.62, +2.00, +0.8%), biotech ([\\$BTK](#) : 668.91, +8.66, +1.3%) and oil ([\\$OIL](#) : 585.23, +6.52, +1.1%) and oil service ([\\$OSX](#) : 185.03, +3.77, +2.1%) stocks put in solid gains.

To see a product preview in action, hover over the link below.

Forty Associates recently added product previews to their Web site as part of a small beta program. During the beta, visitors to Associate sites who viewed a product preview clicked through to Amazon.com over 4% of the time; those clicks resulted in a purchase nearly 6% of the time.

Now we're opening the beta up to all Associates to further improve product previews. The first 500 Associates who refer a sale through a product preview-enhanced link will receive a \$5 Amazon gift certificate. [Click here to join your fellow Associates in beta testing product previews.](#)

Don't worry if you don't already have Basic Display Product Links on your Web site. You can create them as part of the sign-up process. [Click here](#) for answers to questions you might have about the beta program.

The screenshot shows the Yahoo! User Interface Blog homepage. At the top, there's a header with the title "YAHOO! USER INTERFACE BLOG" and a subtitle "News and Articles about Designing and Developing with Yahoo! Libraries." Below the header, there's a navigation bar with "Blog" and "About" links, and a search box labeled "search in blog...". The main content area features a post titled "Yahoo! Design Pattern Library Released" dated February 13, 2006, by Bill Scott. The post text says: "I'm excited to announce that today we are releasing the [Yahoo! Design Pattern Library](#) to the public under a friendly [Creative Commons License](#). The goal in releasing this library is for us to share the common patterns that we see emerging at Yahoo! It is hoped that by opening up our design patterns we can share our current thinking as well as solicit your valuable feedback." Below the post, there's a "SYNDICATE" section with links to "All Entries" and "All Comments" for both "MY YAHOO!" and "RSS". A "RECENT POSTS" section lists several articles, including "Developing a JavaScript Library for Yahoo!", "Welcome to the Yahoo! User Interface Blog", "The Yahoo! User Interface Library", "Yahoo! Design Pattern Library Released", "Search Pagination Design Pattern", "Item Pagination Design Pattern", and "Rating an Object Pattern". A "BACKGROUND ON PATTERNS" link is also visible at the bottom left.

The screenshot shows the Yahoo! Developer Network Design Pattern Library homepage. At the top, there's a header with the title "YAHOO! DEVELOPER NETWORK" and a subtitle "Design Pattern Library". Below the header, there's a navigation bar with "Yahoo! Developer Network" and "Design Pattern Library" links, and a search box labeled "Search". The main content area features a "Welcome" message: "Welcome to the Yahoo! Design Pattern Library. We are very happy to be sharing our library with the design and development community. This is our first drop of what we hope to be a monthly release cycle for the publication of patterns. In many cases we have bundled the patterns with pointers to related code from the [Yahoo! User Interface Code Library](#). We hope this is a useful resource and look forward to your [feedback](#)." Below the welcome message, there's a "What's a Pattern?" section: "A pattern describes an optimal solution to a common problem within a specific context. [more...](#)". A "Recent Patterns" section lists several patterns: "Auto-Complete", "Breadcrumbs", "Drag and Drop Modules", "Module Tabs", "Navigation Tabs", "Object Pagination", "Rating an Object", "Search Pagination", "Writing a Review", and "Writing a Review". Each pattern has a brief description and a link to the pattern page. For example, "Auto-Complete" says: "The user needs to enter an item into a text box which could be ambiguous or hard to remember and therefore has the potential to be mis-typed." Below the recent patterns, there's a "USER NEEDS TO" section with a list of patterns: "Breadcrumbs", "Faceted Navigation", "Fly-out Menus", "Horizontal Bar", "Hub and Spoke", "Left Navigation", "Tabs", "Module Tabs", "Navigation Tabs", "Auto Complete", "Calendar Picker", "Pagination", "Item Pagination", "Search Pagination", "Ratings & Reviews", "Architecture Review", "Rating an Object", "Writing a Review", "Performance Action", "Customize", "Drag and Drop", "Drag and Drop Modules", "Drag and Drop Objects", "In Page Editing", and "Sliders". At the bottom, there's an "APPLICATION NEEDS TO" section with a list of patterns: "Call Attention", "Improve Readability", "Ratings & Reviews", "Review Architecture", "Group Related Items", and "Organize Screen/Page".
